## FEDERAL MILK ORDER BULLETIN

for the  
Milwaukee, Northeastern  
and Madison Marketing Areas  
C. T. McCleery - Market Administrator

U. S. DEPT. OF AGRICULTURE  
NATIONAL AGRICULTURAL LIBRARY

MAR 16 1968

NOVEMBER 1966

### REGIONAL HEARINGS HELD FOR ALL FEDERAL MILK ORDERS

Four area-wide public hearings involving all 71 Federal milk orders were held in Cleveland, Ohio on November 14; in St. Louis, Missouri on November 15; in Denver, Colorado on November 16; and in Washington, D. C. on November 17.

The hearings were being held to receive evidence about marketing conditions relating to the appropriate levels of Class I prices to be established for the months of December 1966 through June 1967 under each of these orders. The hearings were requested by representatives of many dairy farmers, who said emergency action by USDA is necessary to prevent anticipated reductions in prices to farmers.

### CURRENT SERIAL RECORDS

### Producer Settlement Funds Belong to Producers

Payments made or owing from the producer settlement fund of a Market Administrator are not the property of a handler to whom the money is credited if the handler has filed in bankruptcy. In such a case the money is to be paid by the Market Administrator directly to the producers of the handler. This is the effect of a decision on May 27 of this year by the United States District Court for the Northern District of Illinois.

On May 20, 1965, the United Milk Products Company filed a motion in bankruptcy with the Court. On the same date the Market Administrator for the New York-New Jersey marketing area mailed a check for \$9,172 to the company as part payment of the producer settlement fund credit that had accrued to the handler for April 1965 milk. Following the filing of the petition the company was

## LAND: OUR MIXED BLESSING (Continued from October Bulletin)

Credit figured in three-fourths of the farm sales in each of the past 3 years. Debt as a percentage of the sales price has trended upward; in March 1965, it reached 72 percent.

Sellers remain the major source of farmland credit. They financed 38 percent of all credit sales last year, 77 percent of them by land contract. With less money available from commercial sources and rising interest rates this year, seller financing should be even more important.

Among commercial lenders, banks are the most frequent source of funds, followed by insurance companies and Federal land banks. These three accounted for 42 percent of all credit farm real estate transfers last year.

Estimates of residual returns to farm real estate (roughly comparable to the returns on stockholders' corporate equities) rose sharply from 1964 to 1965. After an allowance for operators' management, the rate was 5 percent. This was up from 3 percent a year earlier and the 1960-64 average of 3.5 percent. Net land earnings per acre averaged about \$6.60 in 1965, compared with \$3.70 in the relatively poor profit year of 1964.

Most of the gain in land returns last year was the result of the 20-percent jump from 1964 in total agricultur-

al income. The charge for labor declined a little because of the declining amount used for farming, offsetting some gain in wage rates. Allowances for returns to nonreal estate capital (buildings, farm equipment, and the like) and to management increased slightly.

Gross cash rents per acre kept rising at about the same rate as market values, both for farms and for pastures. Farm rents ranged from \$6.95 per acre in South Dakota to \$28.70 in Illinois. Gross rent-to-value ratios went from 5.6 percent in Ohio to 9 percent in North Dakota. Pasture rents reported were from \$2.60 an acre in North Dakota to \$11.45 in Iowa, with rent-to-value ratios from 3.8 percent in Illinois to 8.8 percent in Wisconsin. Pasture rents vary a great deal with quality — Corn Belt figures are often for cropland while those in North Dakota and South Dakota are largely for permanent pasture.

William H. Scofield  
Economic Research Service

\* \* \*

\* Subject to location differentials where applicable. In the case of members of approved cooperatives, these prices are subject to the deductions authorized by the associations. The prices listed do not include any premium payments which may be paid by handlers and which may bring actual payments in excess of the minimum requirements.

# WISCONSIN FEDERAL MILK ORDER BULLETIN

Published Monthly By  
Federal Milk Market Administrator  
3034 West Wisconsin Avenue  
Appleton, Wisconsin  
for the

Milwaukee, Northeastern and Madison Marketing Areas

This bulletin is primarily to provide producers who are not members of cooperative associations with market information in accordance with §1039.74 of the Milwaukee Wisconsin marketing order, §1045.75 of the Northeastern Wisconsin marketing order, and §1051.77 of the Madison Wisconsin marketing order.

## COMPARISON OF DAILY PRODUCER DELIVERIES TO DAILY CLASS I UTILIZATION

(Continued from page 1)

granted authority to continue in possession of its property and assets until further order of the Court. The check received from the Market Administrator was deposited by the company in its own bank account. Additional producer settlement fund credits which accrued to the company were retained by the Market Administrators of both the New York-New Jersey order and the Chicago order.

The Referee in Bankruptcy concluded that the amount paid to the company on May 20 from the producer settlement fund and the additional credits which were withheld did not become the property of the estate in bankruptcy, as the company contended, until the producers whose milk gave rise to such credits had been paid in full for the milk which they delivered to the company. The Referee thus concluded that the producer settlement fund credits belonged to the unpaid producers rather than to the handler.

United Milk Products Company petitioned the Court for a review of the Referee's ruling. In his decision Judge Abraham L. Marovitz upheld the report of the referee and affirmed the order that the Market Administrators should pay the amount withheld from the company directly to the producers. The following quotation from the Memorandum Opinion of Judge Marovitz is of particular interest.

"We are satisfied that the Referee correctly held that the monies involved were not assets of the debtor's estate, but that said debtor merely held them as a conduit, having an obligation to remit same to the producers. Petitioner could not, by the self-serving act of depositing said funds in its bank account, defeat the producers' prior right thereto. As this Court understands the procedure involved, the monies sent to the debtor as well as those still retained by the Market Administrator would never reach the debtor, except in those instances where because of a low 'use price' it had not paid the producers the 'uniform' price due. Thus, the debtor has no independent right to the sums but is merely serving the function of a delivery agent, transferring money from the bottling handlers, through the Producer Settlement Fund, to the raw milk producers who are entitled to a uniform price whatever ultimate use is made of their product."

Market Administrator's  
REVIEW 9/66
